EXPERIENCE

CJ AI Center

Feb 2026 – Present

Research Intern | K-Drama Analysis Group

- Research on Efficient LLMs, Reliable LLMs, and Long-context LLMs.

Ergolab, UNIST

Jul 2025 – Dec 2025

Undergraduate Research Intern (Advisor: Prof. Gwanseob Shin)

- Researched Medical AI frameworks focused on clinical disease prediction.

Uniway

Jul 2025 – Nov 2025

CEO & CTO

- Service planning, full-stack development, and operations of a mobile application for UNIST students.
- Acquire over 1,000+ active users within the campus community.

Smeal

Feb 2025 – Apr 2025

CEO & CTO

- Designed, developed, and deployed a cafeteria menu and timetable application for K-12 students.
- Acquire over 300+ downloads (including Google Play Store and AppStore).

EDUCATION

UNIST

Mar 2021 – Present

B.S. in Computer Science and Engineering

- **GPA:** 3.93 / 4.30 (Major GPA: 4.15 / 4.30)

AWARDS & HONORS

약학xIT 창업 해커톤 우수상 수상

Jul 2025

SNU 제약바이오인력양성센터 주관

- Developed an innovative music-based patient medication guidance mobile application.
- Awarded a cash prize of ₩500,000.

Academic Excellence Award

Fall 2021, Fall 2022, Spring 2025, Fall 2025

UNIST

- Granted a full tuition scholarship for maintaining outstanding academic records.

PROJECTS

EMG-based Hand Gesture Classification

Mar 2025 – Jun 2025

- Proposed a novel and robust gesture recognition methodology by combining Variational Autoencoders (VAE) with clustering techniques to improve accuracy under noisy signal environments.

EHR-based Length-of-Stay Prediction

Sep 2025 – Dec 2025

- Designed and implemented an end-to-end deep learning pipeline for highly accurate patient Length-of-Stay (LOS) prediction utilizing large-scale Electronic Health Records (EHR).

INVITED TALKS

학성여자고등학교 초청 특강

Jul 2025

- Special Lecture on AI Utilization & App Development
